Rev. Calvin Stewart, of the Church of the Covenant, preached to his congregation in the morning.

Rev. Mr. Gammon, of the Third church, occupied his own pulpit in the morning and supplied the place of Rev. Mr. Turnbull at the Old-Market Hall at night.

Rev. Dr. Fair and family, who have been spending the summer at Hampton, returned to the city yesterday morning.

Sunday Rev. Frank Sewall, of Washington, D. C., again conducted the services at Wilkinson Hall before a very attentive and intelligent congregation, some of whom came specially from Petersburg to hear him. His morning's subject was, "What Is the New Church?" taking his text from Revelations xxi., 2. He desired, he said, to point out the truth conveyed therein respecting that New Jerusalem which is foretold in that book, and the opening up of a New Dispensation, which is to be with all men and among all nations and creeds. He said that therein was the second coming of the Lord spiritually.

In the evening he discoursed on the life and mission of Emanuel Swedenborg, and reviewed his life; and he desired to show that Swedenborg was not a medium or seer or prophet, as generally understood by the world at large, but the instrument in God's hands to unfold the internal sense of the word, as a means to continue these missions.

Arrangements have been made to have a Reading Circle on Sunday afternoons at 4 O'clock at Mr. R. Riche's, S east Clay, where all those interested will be welcome.

Last Friday Mr. Sewall was invited to Hampton, where he lectured on the Resurrection before 300 old veterans, and was very well received, persons of various denominations giving him a hearty welcome. He made a great impression on some of the very old soldiers and they expressed themselves as having received great comfort from his lecture.

DR. PARKER'S TALK.

The services at the Young Men's Christian Association Sunday were more largely attended than at any time in the history of the organization. Dr. W. W. Parker delivered an excellent address on Personal Purity, and 211 young men listened with absorbing interest to his remarks. The music and singing at the meeting were excellent. DR. PARKER'S TALK.

Considerable excitement was created in the neighborhood of Ninth and Main streets yesterday afternoon by the reports of a pistol, fired several times in succession. Scores of people hastoned in the direction of the noise, but investigation proved that nothing serious was the matter except that Mr. George J. Hooper, Jr., while in a state of nervous excitement, had picked up his revolver and commenced firing it out the window of his office. He was arrested and taken to the Second police-station, where he was subsequently bailed. Mr. Hooper said last night, in conversation with a representative of the Disparcial, that he did the firing thoughtlessly.

A general committee meeting was held last night at the Young Men's Christian Association, with Mr. John R. West in the chair. Encouraging reports as to the success of the work now being carried on were read, after which five-minute talks by the following gentlemen were delivered: Professor H. F. Smith, on Gymnasties; Mr. C. W. Gryner, on Boarding-Houses: Mr. John R. West, on Membership; Mr. John G. Griffith, on Invitation Work; Mr. John Scott, on Reception; Mr. C. E. McCluer, on the Boat Club.

The committeemen, after these addresses, retired to the parlor, where seasonable refreshments were served. Here Mr. D. Johnson rendered a solo, and Mr. John R. Scott gave several recitations, which were greatly enjoyed. Professor Smith added to the enjoyment of the occasion by reading a humorous selection, and the party separated about 11 o'clock.

THE ASSOCIATION CLASSES.

Secretary Candlish was as busy as a bee the Gordons, the Mordecais, and the Rennies.

When about fifteen years old Mr. Waldrop enlisted in the Second company of Richmond Howitzers, when that gallant command was confronting McClellan at Yorktown, and although so young, always delicate, and half the time so sick that he ought to have been in bed at home, yet whenever he could drag himself along he was at his post, and it may be safely said that no soldier in the Confederate army discharged his duty from the time of his enlistment to the end of the war more faithfully, conscientiously, and gallantly than he did.

AFTER THE WAR.

THE ASSOCIATION CLASSES.

Secretary Candlish was as busy as a bee yesterday receiving applications for membership and admission to the classes now being organized by the association. The prospects of the latter are especially good, and there is every indication that they will be crowded.

The gymnasium will be formally opened to-night by Professor Smith, the new instructor, and it is expected that many young men will be on the floor to receive their first instruction in class-drill exercises. Seats will be placed in the galleries for ladies and other spectators desiring to see the efforts of the pupils in athletics. Professor Smith possesses all the qualifications to render him an excellent teacher, and in addition to this he is a gentleman of excellent morals and character.

tion—A Letter to Governors.

The Board of Directors of the Confecture Soldiers' and Sailors' Monument Association met in the Hustings-Court room last night. The attendance was good and the meeting enthusiastic.

The Committee on Lectures reported that Hon. A. M. Keiley had consented to deliver a lecture on Egypt for the benefit of the monument fund and the time and place have been fixed—September 15th, at Mozart Hall. The admission will be fifty cents, and it is thought the audience will be the largest "lecture" audience seen here for years. The subjoined report gives sunrise, mini-num and maximum readings of the ther-mometer, the course of the wind at sun-ise, and the amount of rainfall for the rise, and the amount of rainfall for the month of August.

The readings of the thermometer were taken in an elevated portion of the city, the position of the instrument being free from any influence of refracted heat. They are self-registering, of the very best French manufacture, and the figures are believed to be absolutely correct:

A GRAND MONUMENT.

We are most anxious, then, that this monument shall be one not only worthy of those it is intended to commemorate, but that it shall be entirely devoted of all local claims, and be really and truly a grand Confederate monument. That as every State comprising the late Confederacy or attached to the principles for which it was organized will be represented by and in this monument, so each of these States shall feel a special interest in and ownership of it as a monument to their dead.

interest in and ownership of it as a monument to their dead.

To accomplish this it has been determined that the column shall consist of thirteen granife blocks, and that each of the cleven Confederate States, together with Missouri and Kentucky, be asked to contribute the cost of one of these blocks; such cost not to exceed \$2,000 to each, and that he name of each State making the con-tribution be carved on the block contributed by it. ASKING LEGISLATIVE AID.

We therefore take the liberty of enclosing to you, as the official head of your State, this communication with the accompanying photographs, and respectfully and earnestly ask that you will bring the matter to the attention of your General Assembly at its next session, and we feel confident if you will do this that no further appeal will be necessary to secure from your State the small amount herein indicated and desired by the association represented by us "to commensorate the valor, patriotism, and deeds" of the heroic sons from your Commonwealth "who died for their State."

Please advise me of the receipt of this letter and enclosures and of the prospects of the success of the application in your State.

At the meeting of the Police Committee held in the Council chamber last evening bills, salaries, and pay-rolls were approved and ordered paid. Chairman Davis presided, and Mesers. Ferriter, Trower, and Page were also present. Chief-of-Police Poe also attended the meeting. It was seen from the reports presented at this meeting that the cost to the city for feeding the prisoners at the station-houses alone was 502 for the month of August.

Jesse Mitchell, the negro who was taken from the jail here last week to Amelia county, where he was indicted by the grand Jury for assault upon a young woman, has again been remanded to the custody of Sergeant Epps at the city jail for safe keeping. It is said the people in the vicinity of Amelia Courthouse are greatly incensed over the atrocky of Mitchell's crime, and it was feared he would be lynched had he been allowed to remain in that vicinity.

Mrs. Maybrick May Go Free.

A London dispatch to the New York Heraki says Mrs. Maybrick is to be saved from a lifelong imprisonment unless the plans of her friends miscarry. It is likely that within a few days an application will be made for a writ of habest corpus, upon which it is proposed to test one of the most extraordinary points ever raised in a British court of justice. The prerogative of the Queen in commuting the sentence of the alleged husband-poisoner will be put upon trial in a way that may startle the public.

RUSSIA AND TURKEY.

TANT POINT.

Through the Dardanelles, Treaty to the Contrary Notwithstanding.

LONDON, ENG., August 31 .- The inform tion telegraphed to the Standard of this city from Constantinople to the effect that the Porte had yielded to Russia's demands respecting the Dardanelles would seem to be founded on fact. The question at issue between Russia and the Porte referred to Brooklyn Democratic Club.

The Brooklyn Democratic Club will meet to-night at 8 o'clock at their hall, on Brook turnpike, when reports of Committees on Pic-Nio and New Members will be received.

THE CASE OF THE MOSCOW.

The most recent case was the detention of the steamer Moscow of the Russian volunteer fleet. Russia claimed that though these ships were armed, they were outside of the category of war-ships, which are debarred by the treaty of 1841. confirmed at London in 1871 and at Berlinin 1878, from passing through the, Dardanelles. The treaty referred to was concluded between the five great Powers and Turkey, and provides that no ship-of-war belonging to any nation save Turkey shall pass through the Dardanelles without the express consent of Turkey, all merchant ships being also required to show their papers to the Ottoman authorities. Russia besides claimed that these vessels of the volunteer fleet were not war-ships in the proper sense of the word.

The Porte, on the other hand, replied The Committee on Claims and Salaries did not meet last night, no quorum being present.

diers but reservists, who were doing duty as railroad laborers. To these apparently unanswerable arguments from Turkey's powerful enemy the Porte appears to have been forced to submit in the most humble manner, though there is no reason to doubt that Turkey must first have asked the five Powers if they were willing to support her should she still further contest the point with Russia. Apparently the Powers have not thought the point worth troubling about in 1891, though ten years back such a demand might have led to war.

The Porte's Surmission—The Precedent

Gustav Weisner appeared before the Clerk of the Hustings Court yesterday and took out his intert citizenship papers, which contain his declaration of intention.

Dr. and Mrs. Noel, of Nashville, Tenn., are registered at the Exchange. Mrs. Noel is the daughter of the late Mrs. L. Virginia French, and is well known in southern literature.

The first vessel of the volunteer fleet bound for Viadivestock was stopped on April 14th. She was loaded with railroad material and had on board a number of "military workmen," according to the term used by the Russian authorities. Her commander appealed to M. de Nehdorff, the Russian Ambassador, and after considerable parleying and energetic protests and threats upon the part of the Russian Ambassador the vessel was allowed to proceed. Since then there have been two or more vessels of a similar character stopped in the Dardanelles with the result that, in the case of one of them, the Moscow, a test case was made and concluded in the submission of the Porte and the payment of an indemnity.

THE INTELLIGENCE GRAVE. THE INTELLIGENCE GRAVE.

The Intelligence Grave.

The St. James Gazette this evening, referring to the Moscow affair, holds that the submission of the Porte to Russia's demands establishes a precedent which permits Russian war-ships to use the passage of the Dardanelies as they please, while war-ships of othe nations must not enter those straits. This news, according to the same paper, is by far the gravest published for some time.

FATAL AND OTHER ACCIDENTS. Playing Detective.

[Special telegram to the Dispatch.] NORFOLE, Va., August 21.—A workman named G. W. Smothers met with probably a fatal accident at the shops of the Norfolk and Southern railroad to-day. He was on and Southern railroad to-day. He was on the top of the car nailing strips when by some means he slipped and fell to the ground, striking his left temple on the end of a tie. Surgical assistance was at once summoned, when it was found that his skull had been crushed.

A WOULD-BE DETECTIVE. A young man named L. B. Jones, hailing from Richmond, was arrested by Police-Officer Spratt on the charge of unlawfully claiming to be a detective and for being drunk and disorderly. On the way to the drunk and disorderly. On the way to the police-station the prisoner assaulted the officer. To-day Jones was faced with a letter from Crewe, Va., which described a man wanted for complicity in the Farmwille robbery. The Justice decided to commit the prisoner for five days to await developments.

CASHIER TILLMAN IN CANADA

(By telegraph to the Dispatch.)

By telegraph to the Dispatch.]

Detroot, Mich., August 31.—Thilman, the cashier of the defunct Falls City Bank, of Louisville, Ky., is safely across the Canadian line in Windsor. He is registered in his own name at the Crawford House. He arrived on Saturday evening. A dispatch from Louisville was read to him which stated that he had fled to avoid arrest for embezzling bank and trust funds.

"It not true," he declared. "There is no shortage, and any one that publishes the matter will be held responsible. The bank was wound up, and July 10th assigned to the Mechanics Trust Company. The shortage of \$37,000 does not exist. For three weeks after the assignment I was engaged, together with Mr. Sanders, who was secretary of the Trust Company, in winding up the affairs of the bank. If there was a shortage why did they not say something at the time? An examination had then been made. I was and am still cashier of the bank as long as the charter exists."

He was very much agitated while talking. He declared that the bank officials and his family knew he was going away, and that there was no secrecy about it. He said he came to Windsor on personal business, which was none of the public's, and that he would return to Louisville when that business was finished.

THE BOSTIAN'S BRIDGE DISASTER.

I would ask my friends and the public to continue their patronage as usual during the control of the trustees, which will last a reasonable time, and in the near future I hope to make some arrangement to continue in business on my own account.

GETTING A WEIGH WITH OF DELOUR SUITE

It's just about time he did it. The boy when school opens will be somewhere near the head of his class when school closes. You cannot improve on these Suits anywhere in America for either style, durability, or price. They'll come pretty near lasting until your boy out-grows them, no matter how hard he may be on clothes. They cost no more than suits which in a week will go to pieces in the play-ground, and they won't look unpresentable when they are finally discarded. In other words, they are to stand the racket, and it doesn't make much difference how rough the racket is. Just as durable, well-designed, and inexpensive are our Clothing.
